BIKE SHARING SYSTEM

The e-bike sharing system of Municipality of Rethymno is a daily urban transportation service addressed to all adult citizens, permanent residents and visitors of the Municipality.

The project is part of the Action: "Sustainable micro-mobility through a system of shared bicycles in Municipalities of the Country", which has been included in the Operational Program "TRANSPORT INFRASTRUCTURES, ENVIRONMENT AND SUSTAINABLE DEVELOPMENT".

SYSTEM USAGE INSTRUCTIONS

BIKE RENTAL PROCESS

-  Download easybike Rethymno app on your mobile phone and create an account.
-  Select the bike of your preference and scan the QR code located on the bike.
-  Wait for the system to unlock the bike.
-  You're ready! Unlock the bike by gently pulling it outward from the locked position.

BIKE RETURN PROCESS

-  Go to the nearest bike station.
-  Find an available space and simply place the bike in the lock.
-  The bike is automatically recognized, and the lock secures, emitting a distinctive sound.
-  **ATTENTION:** Verify through the application that the system has recognized the bike and securely locked it in place.
