

## **RETHYMNO ENERGY DAY 2013**

**7<sup>TH</sup> OF JUNE 2013**

In the occasion of the World Environment Day on June 5, municipality of Rethymno is organizing an Energy Day, under the hospice of the Regional Energy Agency of Crete. The events' calendar includes:

- **MORNING: "Educational Programs for primary school children of the Municipality of Rethymno."** Raise of the children environmental awareness of energy efficiency, rational energy use and ecological footprint by their participation in games and various activities. Demonstration of solar energy in actions with the aid of constructions from simple and recyclable materials. Organized by the Environmental Education Center of Anogia and the Science Laboratory of the 9th Rethymno Primary School.
- **ALL DAY: "Raising energy awareness & energy saving"**. Information and leaflets will be provided to the locals and city visitors. Three info points will be placed in city central locations. Organized by the Regional Energy Agency of Crete, the Technical Chamber of Greece and the Technical University of Crete-Renewable and Sustainable Energy Systems Lab.
- **EVENING: "Energy, Environment and the HiPER project for producing adequate and clean energy by hydrogen fusion"**. Speech presented by Dr. Michael Tatarakis and Dr. Nektarios Papadogiannis professors of Physics, TEI of Crete, Head of the Research Center for Plasma Physics and Laser, European Regional Installation HiPER in Greece. Organized by the Technical Educational Institute of Crete-Research Center for Laser and Plasma Physics ([www.cppl.teicrete.gr](http://www.cppl.teicrete.gr)).
- **EVENING: "Cycling in Rethymno Historical Center"**. Promotion of the municipality sustainable mobility policy by a bicycle tour in the historical center and Venetian harbor. Organized by ATLAS Cycling Club.
